Profile

Refusal to inaction is a personal mantra. I desperately absorb knowledge in web development as well as exploring more new skills. Currently, I'm looking for an interesting projects, where I can apply my existing skills and explore some more.

Experience

Frontend Developer · ASRM.kz

September 2022 - January 2023

- Maintained, developed, and designed the public website using Vue 2, Vuex, HTML5, and CSS
- Responsible for mobile responsiveness, cross-browser compatibility, registration process, and UX design
- Integrated website with RESTful API

Frontend Developer · BCPD Ltd.

April 2022 - October 2022

- Developed dynamic and browser-compatible pages using Next.js, TypeScript, and Material UI
- Worked in an agile environment with weekly stand-ups to design the user UX journey
- Contributed to the organization of EdTech Forum.

Speciality: Software Engineering
Activities: Head of "ITFM" Student Radio club

Schmalkalden University of Applied Sciences

2022-2023 · Exchange program

Faculty of Computer Science

Recent Projects

Plannet Startup

[Project Link](#) ↗

Mobile Application · Social Network

The application was designed as a social platform with productivity tools. Contains planning, making challenges, tracking the performance and some more tools. The team consists of me (CEO, Front-End mobile developer) and two friends of mine (Back-End developer and UI/UX designer)

The project was launched during the participation in business incubator program at Innovation Center of IITU and is still actively being supported by the university.
